KeyEAST RUTHERFORD — A homebreak-
into was easily thwarted by the homeowner
in this case, but police say a second similar
crime and an attempted thief took place in
the same neighborhood. The New Jersey
man, around 4:30 a.m. today, called police
after a break-in, and cops found the man
who entered his open garage during the
burglary. The homeowner told authorities
that he also heard a woman's voice inside
his home, and came out to investigate. When
he did, she ran off and police did not find
her. Police believe the woman was the one
who broke into the garage. The police seized
the woman's clothing, which was identified

by the homeowner, police said in a written statement. She was also identified by neighbors, police said. She was taken to police headquarters, where she was interviewed, released without being charged, and has to return for a court date next month.
